Team Building Thru Cooking

Have you ever been in the kitchen trying to put a meal together with your friends or spouse? Have you been on project teams that just couldn't get it done?

Turn those "recipes for disaster" into "recipes for success"!

Let's get cooking!

This Team Event **"stirs it up"** with a fresh take on team building and innovation. The "ingredients" of individual talent transform into a culinary masterpiece through a fun, collaborative experience. Teams will **"mix it"**, **"fix it"** and **"taste it"** while learning techniques for productively working together!

In this kitchen, too many cooks is a good thing!
